ABOUT ME

I am a passionate Full Stack Developer experienced in Django, Ruby on Rails, and ReactJS, driven by a love for technology and web development. After several years in engineering and international experiences in the USA and Australia, I discovered my passion for coding, which led me to shift my professional focus. I am proactive, with strong communication and teamwork skills, always eager to learn new technologies and tackle complex challenges.

SKILLS

- Python - Django
- JavaScript ES6 - React
- Ruby on Rails
- SQL / PostgreSQL
- Rest API
- Git - Github / Gitlab
- PyQt - Maya - ShotGrid
- HTML - CSS / SCSS

LANGUAGES

- Spanish: Native
- English: Advanced

WORK EXPERIENCE

Python Software Engineer - Lightbox Animation Studios Mar 2023 - Present

- Maintain and/or refactor existing code to improve performance, design or update to new Python versions.
- Design, develop, test and debug code and tools oriented to CG software, production Databases and remote interaction to our structure.

Full Stack Developer & Web Consultant - Freelance Mar 2024 - Present

- Freelance consultancy services, working with various clients on web development projects. My contributions have included website redesigns, performance optimization, and strategic advice to enhance their digital presence.

Market Representation Analyst - Ford Motor Company Jun 2019 - Jun 2021

- Financial Statement Analysis
- CX - Insites Settings
- Business Plan Organization
- Supervision of different processes with dealers

FREELANCE PROJECTS

- Filmoteca: This project aims to completely redesign the web page from scratch, with the main focus being user experience. The app has been built from scratch using React JS for frontend and Ruby on Rails for the backend API. [Github Repository](#).
- TvTalk: Project Manager for movie social media where you can post, chat, and follow friends. Using some tools such as HTML, CSS, Bootstrap, JavaScript ES6, SQL, git, GitHub, and Ruby on Rails. [Github Repository](#).
